Problem-solving Developer and Information Technology Specialist with experience in designing and developing database-centric applications, skilled in web-based architecture and database programming. Experienced in leveraging technology to drive organizational efficiency and high-performance integration.

PROFESSIONAL EXPERIENCE

CMS Admin/ Drupal Developer

Freddie Mac, Mclean, VA

June 2024 - September 2025

- Commanded the full content pipeline, strategically deploying dynamic assets and ensuring seamless integration within the Drupal architecture to drive a cohesive and compelling user narrative
- Fortified the stability and integrity of Freddie Mac's mission-critical web ecosystem, executing flawless content updates and proactive maintenance to ensure 100% uptime and operational excellence
- Spearheaded the technical execution of a complex platform migration, architecting a new front-end experience from legacy systems while rigorously adhering to Freddie Mac design principles

Web Coordinator

Jasaron Learning Institute, LLC, Chesapeake, VA

May 2023 - June 2024

- Built customized website layout/user interfaces by using standard HTML/CSS practices
- Maintained websites required by the client and modified websites from layout to function
- Researched current market trends to increase business

Drupal Developer

IBM, Armonk, NY

May 2022 - May 2023

- Enhanced Drupal's Search query capabilities by including Component searches and reviewed Drupal Search modules to add a Component parameter, facilitating more nuanced searches
- Addressed customer-reported search issues by developing a script that compared published Drupal content against the Enterprise Search index, identifying and resolving discrepancies by either removing broken links or repushing unindexed content
- Managed Drupal sitemaps and automated Google Search updates using Google Search Console; also became adept at debugging Drupal sitemap issues

Junior Web Developer

Yes&, Alexandria, VA

May 2021 - December 2021

- Worked in front-end and back-end development environments through an open-source CMS (Drupal, WordPress)

EDUCATION

George Mason University, Fairfax, VA

M.A. in International Commerce and Policy

May 2023

B.S. in Information Technology

May 2021
