AARON BRYANT

FRONT END ENGINEER

P 443-938-1746   **E** Abryantdev@gmail.com   **A** Woodbridge, VA   **P** [Portfolio](#)

OBJECTIVE

Front-end developer with five+ years of experience building scalable front-end interfaces using ReactJS while specializing in Content Management Systems such as Drupal 10 and WordPress. Skillful at collaborating with design and product teams to develop high-impact web applications. Established performance in full-lifecycle web application development, achieving 100% uptime on mission-critical platforms while driving efficiency through CI/CD and Agile methodologies.

EXPERIENCE

June 2024 to September 2025
Senior Web Platform Developer ◉ Freddie Mac ◉ Mclean, VA

- Maintained and stabilized a mission-critical web ecosystem through proactive maintenance and complex content deployments, successfully achieving and sustaining 100% platform uptime.
- Led the technical execution of a complex platform migration, architecting a new front-end experience from legacy systems and strictly ensuring compliance with internal Freddie Mac design principles.
- Managed the end-to-end content deployment pipeline, integrating dynamic assets within the Drupal architecture to ensure content freshness and seamless user narrative.

August 2020 to June 2024
Senior Web Coordinator ◉ Jasaron Learning Institute, LLC ◉ Chesapeake, VA

- Developed and deployed customized, responsive user interfaces using standard HTML5/CSS practices to align with client educational goals.
- Managed all aspects of client website maintenance, encompassing front-end layout modifications, back-end functionality, and performance optimization.
- Leveraged market research and UX/UI practices to enhance site usability.

May 2022 to May 2023
Drupal Developer ◉ IBM ◉ Armonk, NY

- Developed diagnostic script to reconcile published Drupal content
- Engineered search query capabilities in Drupal by introducing a component parameter, facilitating more nuanced and targeted content discovery for end-users.
